## Know Your New Award Seminar

The Registered and Licenced Club Award has been updated by the Fair Work Commission and operative from 21 December 2020. The Award has always been difficult to interpret and there has now been significant changes to the Award which will have an impact on the interpretation of the Award and implications for payroll.

In an effort to assist our clients we are running a series of seminars designed to aid your team in understanding and applying the new Award to your workplace. These sessions will focus on the changes and updates to the Award and the impact for employers.

We will provide attendees with an understanding of:

- the key clauses including classifications,
- determining payrates, penalty rates, overtime loadings, meal break obligations,
- leave entitlements, and more.
